

## “Hide and Seek Adventure” Already Available for iOS Mobile and Tablet Devices!

Vancouver, Canada - BlockGames studios are proud to present the “Hide and Seek Adventure” indie game. The game is perfect for everyone, no matter the age, gender, or any other preference, as everybody knows children’ Hide and Seek game, which we all played when we were young. But at that time, you could only play it with friends that lived close to you.

### Game Play:

With Hide and Seek Adventure, players can play with anyone around the world. Next to that, you can choose different characters with cool skins and many different maps. That is also a feature that was not available in live version when you parents said that you can only play near the house or apartment. These maps are made for hiding, but I am sure, you are clever enough to find your opponents.

For the additional entertainment, there is great background music and sound effects that amplify the experience. Of course there are also achievements and ranking available for those that are good at Hide and Seek.

Do you think you can get the achievements? Than download the game at <https://itunes.apple.com/us/app/hide-and-seek-adventure/id1077666955?mt=8>

You cand find other games from BlockGames and more about this studio at <http://blockgames.org/>
