THE STORY SO FAR:

Kyurinaga's war machine took a decisive blow right after our heroes blew up The Forge, the Shogun's main source of political power. Beaten but not defeated, Kyurinaga managed to escape with the remains of his army, swearing revenge on the two rebels who dared defy him.

Months after that, Kaoru and Broccoli are leading an improvised revolution for a better tomorrow against the Shogunate, alongside other rebels and deserted soldiers. However, Kyurinaga has not given up just yet and has stricken a deal with dark forces that might bring ruin not only to our heroes but to all Japan.
