

# Riders of Asgard – Biking Vikings Unite

**March 28, 2017 – Durban, South Africa** – Gobbo Games PTY (LTD) has announced that its new game “Riders of Asgard” for Windows and SteamOS/Linux devices will be released on March 31, 2017.

Riders of Asgard is a fun and challenging Viking BMX game. Unlock new maps and items to upgrade your Bike and Rider, and access previously unreachable places. Riders of Asgard features a full single player campaign as well as local multiplayer to take on your friends!

Riders of Asgard is much more than your average run-of-the-mill, Viking BMX game. It’s a historically correct Viking BMX game, with historically accurate Viking bikes and locations.

**Choose Your Path** - Play the level as you see fit and choose your own path to pull off the best tricks and unlock the special bar.

**Choose Your Style** - Use the gold you earn while playing the game to upgrade your bike and viking.

**Choose Your Tricks** - While you play, choose your trick-set and use those tricks to earn more points and climb the leader board.

**Choose Your Opponents** - Take on the world by competing on the various leader boards, or out trick a friend in Local Multiplayer.

**Choose Your Control** - The game has full controller support, and features various Assists you can enable or disable at any time. A controller is recommended but keyboards are also supported.

**Availability and System Requirements:** Riders of Asgard is planned for release on March 31, 2017. For Windows the game requires a Quad-core Intel or AMD, 2.5 GHz or faster with 4 GB RAM and at least 2 GB available space on your hard drive. A DirectX 11 compatible graphics card and sound card are also required. For SteamOS/Linux the game requires a Quad-core Intel or AMD, 2.5 GHz or faster with 4 GB RAM and at least 2 GB available space on your hard drive. A NVIDIA GeForce 470 GTX or higher with latest NVIDIA binary drivers and compatible sound card will also be required.
