

## Ms Rainbow Press Review

Hello, My name is Kyle Seaver.

I am a Solo Indie Developer from Greenford Ohio. I have been working for about a year on a game called "Ms. Rainbow". Below is all the information you should need to either review it, or at least check it out and let me know what you think!

### App Store Description:

Meet Ms Rainbow! She is your new hero and supplier of rainbows to the world! She also has a BIG problem! Earlier this morning a evil man has stolen her powers and has been destroying the worlds! Your going to need to help Ms Rainbow meet new friends, revisit old ones and learn various abilities to pass through tricky levels, find the missing rainbow eggs, and solve this mystery of the rainbow thief!

### What makes it different:

Ms.Rainbow is different from the games that inspired it. It gives a whole new take on tap to play games. Similar to the "Impossible game" and "Mr.Jump", you will begin to move forward off the start, then you only using "taps" to control your character. You will also Aquire Jump, Double Jump, Wall jumps, Wall Slides, Glides, Blasts, Triple Jumps, etc....

### Controls:

Taping the screen. (Anywhere)

You can download it from the apple store here:
